Nolan Ashcraft

Front-End Developer

MY PROFILE

I'm a physics student, and I've realized that programming is very easy and entertaining to me, so, on my way to specialize on programming I have been learning all as I can about it.

I want to work as a front-end developer because my goal, on the future, is to make physics simulations easy to any physics student, so they can understand better what they are learning.

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- NodeJS
- React
- Python/Django
- Git & GitHub
- PostgreSQL
